

EXHIBIT 2-G

NOTICE OF EXPLANATION FOR FLOODPLAINS AND/OR WETLANDS

Date of Publication of Notice¹

The (Name of Grantee: City, Town or County) of _____, Montana intends to undertake a project located in the 100-year floodplain. The project involves (describe the proposed project and reasons to proceed. For example: housing rehabilitation and floodproofing of residences along Second Avenue between Main Street and Broadway Street. This program will provide improved housing conditions for 25 low and moderate income families. Proposed housing improvements cannot be undertaken in any other location because relocation costs would exceed available program resources. Failure to provide the rehabilitation and flood proofing assistance would result in the continued unsafe and unhealthy living conditions for the 25 families.)

It is the (City's, Town's or County's) judgement that the proposed improvements outweigh consideration of Executive Order _____.² **[Note: At this point grantees must add proper justification for this finding, such as providing mitigation through floodplain insurance, conformance with adopted floodplain regulations, or structural flood proofing. Also provide a short statement explaining the ramifications of any practical alternatives considered, but not selected.]** A more detailed description of the project and the FEMA flood maps are available for citizen review at (Name of Public Office, such as City Hall or Planning Department, name of City or Town), Montana.
